

Please allow national broadcast stations like K-LOVE to continue. This station serves to inform me of not only local news but national news too. It helps connect me to people in my town but also with others across the country. K-LOVE provides positive and encouraging broadcasts unlike any other. Without this station, our community would not be able to receive or hear their uplifting message. My husband and I along with my two young children listen everyday. Please allow this unique station, K-LOVE, to keep its family friendly programming on the air.
